## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Michael Smith on April 15, 2004.

The application has been amended as follows:

**Claims 12-15 are cancelled.**

### *Allowable Subject Matter*

2. **Claims 1-11 are allowed.**

3. The following is an examiner's statement of reasons for allowance:

**Claims 1-11** are allowable because the prior art fails to disclose or make obvious, either singly or in combination, an apparatus and method for indicating real time focus in a scanning microscope comprising, in addition to the other recited features of the claim, "one or more power indicators for detecting and displaying average power of the filtered analog electrical signal of a corresponding bandpass filter".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

**Yamada et al. (Patent No. US 5,130,540)** discloses an apparatus and method for automatically moving the focal plane of the electron beam produced by a scanning electron microscope to the position of specimen surface.
